K.F. Patil Esq. B.A. M.L.A.

Parliamentary Secretary to the Revenue Minister,

POONA.

Sir,

The undersigned signatories of village of Chitwadgi Taluk Hungund, District Bijapur, beg to submit as under:-

2 Chitwadgi is a village in Bijapur District with a population approximately amounting to 650. It is three miles away from Hungund, which is a Taluka Head-quarter. The yearly revenue paid to the Government is Rs.2700/-. It is the last village of the British India and on the other side of the village extends the Naizam's territory. As it is a village neighbouring on the Naizam's territory and as it is away from Provincial Head-quarters it is most neglected one, though it is a well grounded place for agricultural improvement.

3 There is a catchment area away from three miles from this village, and if the Dam is built it will irrigate half the lands of the said village. I am glad to bring to your notice that it was once examined by the late Government by sending an expert, and the expert opined that it is a feasible one and it will stop the recurring dire famine to this village The project was given up on account of the apathetic attitude of the late bureacratic Government.

4 Now the popular Government has ~~x x~~ ushered in and the villagxers as a whole are jubilant over it. We fervently hope that the scheme may be taken up by sending an expert to investigate the possibilitxes of the scheme from all aspects. The villagers are ready to give helping hand to the Government. It is a stark reallity that 90% of us are under fed and the scheme may bring some relief to us.

5 It is the solemn request of the villagers that the expert may be sent to see the site early.

Date. 25th Sept 46.

Yours mobediently.

Further communication from the Collector of Bijapur may be awaited till 25th Feb.

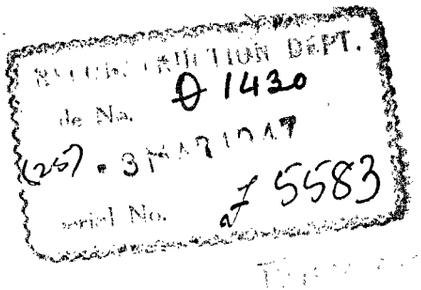
6-2-47. Supdt F 6/2/1947

Via Bijapur, 28-2-1947.

The Secretary to Government,

Reconstruction Department, Bombay.

Subject:- Constructing a dam at Chitwadgi, taluka Hungund.



Reference:- Government Endorcement, Reconstruction Department, No.O/26153-D, dated the 21-10-1946.

A copy of the preliminary report from the Executive Engineer, Bijapur for constructing an irrigation tank at Chitwadgi, Taluka Hungund at a rough cost of Rs.67,000/- is enclosed herewith. Topo sheet extract and a map showing the longitudinal section of the dam are also enclosed. The Public Works Department may be asked to make detailed investigation ~~of~~ the scheme and ~~to~~ prepare the necessary plan and estimate for deciding finally whether the scheme is worth ~~being~~ taken up.

Collector, Bijapur.
27-2-47

Situation:- Chitwadgi is a village in Bijapur District with a population approximately amounting to 650. It is three miles away from Hungund which is a taluka Head quarter. It is the last village of the British India and on the other side of the village extends the Nizam's territory. The dam site in question lies to the South east of the village Chitwadgi.

2. Catchment area, rainfall and runoff:- The catchment area intercepted at the site of the proposed dam is 1.5 Sq. miles and partly soil and partly murumy. The rainfall during the last 30 years at Hungund the, nearest rainguage station is 22".42. The runoff required to fill the tank is about 3" the gross storage of the tank being 10 M.Cft.

3. Design of Works:-(a) The dam is an earthed one and about 2700'long with a maximum height above the nala bed 38'. The section of the dam adopted has a top width of 6' with slopes of $2\frac{1}{2}$ to 1 both on the rear and front. Keeping in view of a minimum covering of 8' in the rear over the Hydraulic gradient at the gorge portion. Hearting of selection materials is provided upto 1' above H.F.L. with a top width of 6' and side slopes of 1.1. Puddling as also provided through out the length of hearting.

(b) Waster Weir:- The waste weir is designed to pass a discharge of 960 cusecs expected from the catchment area of 1.5 sq.miles with an intensity of runoff of 1" per hour. It is of a drowned channel type 69' long with a flood depth of 3 feet.

(c) Outlet:-Masonary drain outlet is provided with a discharging capacity sufficient to irrigate 100 acres.

4. Land compensation:- It is proposed to acquire lands submerged upto F.S.L. in addition to the lands required for dam, waste, weir and tail channel etd., which may amount to about 30 acres. A flat rate of Rs.200/- per acre has been provided for acquiring the same.

5. Communication and Market facilities:- The market

north of the village.

6. General:- This scheme has come to the light on account of the earnest request of the villagers of Chitwadgi, who, it is reported arex in a pitiable - condition. They are ready to give a helping hand to the Government if the scheme is taken up. Though the return on this scheme is rather poor, the villagers would be greatly benefitted by this work.

Executive Engineer, Bj.Dn.

"True Copy".

For Collector, Bijapur.

These pps. relate to the construction of a dam at Chitwadgi in Hunnadund taluka of Bijapur district.

The Collr. of Bijapur has forwarded a report of the Ex.Engr.,Bijapur Division. It appears from the report that though the return on the schemes is rather poor it is likely to benefit the villagers. Before, however, it is considered further it appears desirable to call for S.E.,S.C's x remarks on the proposal. The endt. overleaf may issue.
